

The Works Suite™

Four products. One data model. The capital program end to end.

SUITE OVERVIEW

ENTERPRISE PROGRAM PLATFORM / MODULAR LICENSING / SAAS OR YOUR TENANT

WHAT IT IS

The Works Suite is Fuzion Consulting Group's platform family for capital programs — field execution, document control, portfolio planning, and program governance. Four products, one suite, one data model, so work carries across the boundaries where programs normally lose it. Every product is modular: purchase each module together or separately, hosted in our secure Microsoft tenant or deployed in yours. Built by people who have spent 35+ years inside large-scale construction, engineering, and utility programs.

THE FOUR PRODUCTS

Fuzion365 FieldWorks™

M365-integrated field management.

LIVE — AVAILABLE NOW

- Built natively on SharePoint, PowerApps, and Teams — no bolt-ons, no proprietary silos
- Direct Bluebeam Studio integration, and site dashboards and portals for superintendents, foremen, and program leads
- Modules: RFI, Submittal, Change Order, Transmittal, Bluebeam, and Field QA/QC (in development)

FIELD PRODUCTIVITY / ENTERPRISE READY

Fuzion ConstructWorks™

AI-powered document & construction management.

IN TESTING

- AI document understanding and extraction — classified and keyed at intake, not by hand
- Custom forms, configurable workflows, metadata and taxonomies; approvals, RFIs, submittals and transmittals in one register
- Configurable AI models — more client configurability than any other product in the suite

DOCUMENT & CONSTRUCTION MANAGEMENT

Fuzion ProjectWorks™

Long-range forecasting. Stage Gate 0-5. Compliance built in.

IN TESTING / PRIVATE BRIEFING BY REQUEST

- Multi-year CapEx and O&M ledger with 5-, 10-, and 20-year horizons and scenario planning
- Stage Gate 0-5 governance, project controls, outage plan, NERC CIP and nuclear compliance
- Eleven modules including accounting and FBO gateways to your ERP general ledger, with finance sign-off before posting

PORTFOLIO PLANNING / PROJECT CONTROLS

Fuzion ProgramWorks™

The governance layer for capital programs.

IN DEVELOPMENT

- Weighted complexity scoring auto-provisions the right plans, KPIs, gates, and meetings per project
- KPI variance raises a barrier, a barrier raises an action, and rules-based escalation moves it
- G0-G5 gates plus a NERC CIP compliance gate; M365-native in Commercial, GCC, or GCC High

CAPITAL PROGRAM GOVERNANCE

HOW THE SUITE FITS TOGETHER

FieldWorks runs the field. ConstructWorks runs the documents. ProjectWorks plans and forecasts. ProgramWorks governs.

FIELD Fuzion365 FieldWorks™ Site execution on Microsoft 365	DOCUMENTS Fuzion ConstructWorks™ Governed, searchable content	PORTFOLIO Fuzion ProjectWorks™ Forecasts, gates, controls	GOVERNANCE Fuzion ProgramWorks™ KPIs, barriers, escalation
--	--	--	---

One platform, one data model, and handshakes that carry a field change order through cost impact to a governed, escalated barrier. Adopt one product now and add the others as the program scales.

INTEGRATION DEPTH ACROSS THE SUITE

Microsoft 365 NATIVE	SharePoint NATIVE	Teams & PowerApps NATIVE	Power BI NATIVE
Bluebeam DIRECT	SAP DIRECT	Oracle DIRECT	Maximo DIRECT
Primavera P6 SCHEDULE	EcoSys COST	OpenText CONTENT	Azure & REST API INFRASTRUCTURE / OPEN

DEPLOYMENT

- SaaS**
Hosted by Fuzion in our secure Microsoft tenant. Fastest path to production.
- Private Tenant**
Deployed in your Microsoft 365 tenant. Your data, your perimeter, your IT governance.
- Commercial, GCC & GCC High**
ProgramWorks runs in Commercial, GCC, or GCC High on Azure Government for programs where data sovereignty is non-negotiable.
- Modular Licensing**
Purchase products, and the modules inside them, together or separately — and add as you scale. Pay for what you deploy.

TRUST & COMPLIANCE Module workflows aligned to ISO 55001 / 31000 / 21502 / 21508 / 21511 / 15489 / 30301 / 9001 / 19443 / ISO 37001 / ISO/IEC 27001 / 27701 / 38500 · hosted on Azure services carrying Microsoft's ISO/IEC 27001 / 27017 / 27018 / 27701 / 20000-1 / 38500 / 22237 certifications. Alignment, not certification · audit evidence provided during procurement.

BUILT BY

"35+ years inside large-scale capital programs. We built this for how the work actually gets done, not how software vendors imagine it does."

FUZION CONSULTING GROUP / EST. 2019

NEXT STEPS

Talk to a consultant.

Bring your program lead. We will walk the suite end to end — FieldWorks in the field, the live demo at AI intake in ConstructWorks, and the ProgramWorks governance engine — and map which products and modules fit your tenant, your team, and your timeline.
